## SECTION FIVE – HAWORTIA SOCIETY SECTION

*Haworthia Quilla CCO 378* (photo: Alan Rollason)

Nearly every *Haworthia* grower/collector in UK and some in Europe must have at some time come into contact with Joyce Coccozza, either in person or via her website.

Joyce grew amazing plants and produced some wonderful hybrids and cultivars. Everyone who collects these plants must have a least one of her plants in their collection.

**This section of the show this year is being dedicated to Joyce's memory.**

**The schedule is compiled in accordance with a list of accepted species in The *Haworthia* Nomenclature within guidelines published by M. B. Bayer and J. C. Manning. Where botanists have produced plants with name changes, it is the exhibitors duty to ensure that these plants are exhibited in the correct classes i.e. *H. wimii* as *H. emelyae* var. *major* etc.**
